Hello everyone,

We have reached May and our schools are busy with end of the year activities such as field trips, spirit days, music events, some fun end of year classroom activities, NHS induction, and spring/summer athletics overlapping for a few weeks. Not to mention for seniors...cap and gown walk, practice graduation, senior cookout, awards night, and Graduation. That is all followed up with a month of graduation parties! Not to mention we have three weeks of learning to wrap up for the year yet! Seniors can't wait to get to the finish line this year but I wish there was a way to get them to stop and appreciate the moment. I guess that would be like asking a distance runner to slow down and appreciate the race 100 yards from the finish line. It is probably not going to happen.

I would like to congratulate all of our seniors and wish them the best as they move into the last month of their high school career. We are currently finalizing plans for graduation which will be held on the football field at 2pm on May 19. Let's hope the weather cooperates and we have a beautiful graduation day. I would love to send the class of 2024 off with a wonderful program and some lasting high school memories.

If you are a parent of a senior, congratulations to you too! It is a lot of hard work to get to this point. Helping with homework, concerts, sports, school play, speech, drama (not the good kind), this week my friends are so important and next week getting left out of the sleepover, skinned knees, learning how to ride a bike, birthday parties, learning how to drive a car, dating, breaking up for the first time, PROM, 4H, boy scouts/girl scouts/campfire girls, getting a job, balancing their time, getting good grades, taking Kirkwood classes, selecting a college, or getting a job after graduation...this list could go on and on. WOW it is a lot of work being a parent. I know that graduation is only a ceremony, but as a parent, at some point this summer it will hit you that this chapter is coming to an end. My advice is to appreciate it, celebrate it, and when they walk across that stage, let it be emotional and AWESOME! It can be a little surreal for some parents after planning for this moment for all these years and then watching it all unfold on May 19. I hope you feel that sense of pride when you see them get that diploma. They have earned it and so have you!

For the students in all of the other grades, the last day of school this year will be Wednesday, May 22. We will have a 1pm dismissal on the last day. Let's hope for no more school delays or cancellations so that date does not have to change.

As always, if you have any questions please feel free to send me an email or give me a call at any time. Thank you for your continued support of the Monticello Community School District.

Sincerely,

Brian Jaeger, Superintendent

# ELEMENTARY SCHOOL PROJECT

## Facility Next Steps: A New Elementary School!

It's hard to believe it has been six years since residents of the Monticello Community School District voted to approve funding to construct a new middle school.

**In the fall 2020, we celebrated the opening of the new middle school, and last year, our community said goodbye to the original middle school, which will be the site of a new Thiesen's.**

In short, we've accomplished the first phase of the long-term plan agreed upon by the Facilities Advisory Committee made up of parents, staff, community members, business owners, and school board members six years ago.

**Now, it's time to implement the second phase: a new elementary school.**

Earlier this year, the district reconvened the Facility Advisory Committee to review the original plan. The committee included 30+ individuals, some of whom participated in the last planning effort and others who were able to offer fresh perspectives. They met three times in February and March to revisit the original plan and confirm that a new elementary school to replace Carpenter and Shannon Elementary is the next right step for the district.

replace Carpenter and Shannon Elementary is the next right step for the district.

After reviewing the original plan, touring both elementary schools as well as the new middle school, and learning about the funding strategy, the committee agreed that this is the right time to implement the next phase of the long-range plan.

Because the district has been diligent stewards of taxpayer dollars, and because our community has grown over the last few years, we are able to bond to pay for a new elementary school both earlier and with less impact to the tax levy rate than was originally projected.

Over the last month, committee members collected the more than 250 required signatures needed to petition the board to call an election to pay for the new school. At their April meeting, the board accepted the petition and called the election for Nov. 5.

### What's the plan?

A new elementary school at the middle/high school campus that will replace both Shannon and Carpenter Elementary to realize the district and community's long-term of creating a central educational campus.

### How will we pay for it?

To pay for the estimated \$26.5 million elementary school, the district is proposing funding from a combination of sources:

- General Obligation Bond: \$15 million
- Sales Tax Revenue Bond: \$10 million
- Dedicated Facility Cash Reserves: \$1 to \$2.5 million

### What's next?

On Nov. 5, voters of the Monticello Community School District will be asked to vote on a measure that would allow the district to raise the property tax levy rate by \$1.10 per \$1,000 of taxable (not assessed) property value.

### Learn more!

There will be many opportunities to learn more about the plan. We hope you will attend in person events and ask questions. Your participation in the vote is critical to our district and community's future.

## COMMUNITY CONNECTION

Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act, and helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood. Mental health conditions are far more common than you think, mainly because people don't like to, or are scared to talk about them. However:

- 1 in 5 people will experience a mental health condition in any given year
- About half of Americans will meet the criteria for a diagnosable mental health condition sometime in their lives, with symptoms starting by age 14 for the majority of people.
- 50% of all lifetime mental illness begins by age 14, and 75% by age 24
- Everyone will face challenges in life that can impact their mental health

Monticello Community School District has been able to bring awareness and meet mental health needs by hiring two school based therapists for the 2023-2024 school year. With the collaboration between the amazing group of school counselors, school social worker, and school based therapists, the district has resources to offer to all students that are in need. It is never too soon to seek treatment for you or your child's mental health. Remember, **YOU ARE NOT ALONE.**
